NOTES AND ORDERS.

NOTES—First Sheet.

G.R.S. 13]

Routine Notes.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

Subd.

As there is no arrangement to drain off the water flowing out of the taps to the East of the General Record Rooms (i. e. near the State Paper Treasury), the water stagnates, and owing to effluvia it stinks. It is simply unbearable.

To add to this, people commit nuisance, taking advantage of the clump of plants all round.

Request orders to the authorities concerned to remedy this defect.

11/4/14 Mc. If approved the Executive Engineer

water Supply Division, and the Superintendent Govt. Gardens will be addressed in the matter.

MC 17/4/14.)

WL

Due ring in front of the room where the special Establishment is working is misused as it serves as people misusing the same. This is due to the want of urinals for the officials of the several offices located in the Public office Buildings on account of the absence of such urinals officials from the several floors of the Public offices have to go a long way off to answer natures calls. This ~~not~~ takes away much of their time which would otherwise be available for public

G.R.S. 13]

Routine Notes.

business. If approved a reference will be made to the Sanitary Engineer to take steps ~~for the Construction~~ for the construction of a sufficient number of sanitary urinals in the principal floors of the Public Offices.

The chief difficulty that would present itself would be that of location & flushing arrangements.

Dy Secy. 11/4.

Please consult the S.S. in person ~~as~~ on dep. as to the best method of erecting urinals. Let me know the result. This may be classed as a major want & constantly kept in mind. The G.O. of 1894 has sometimed fair & struck. Please consult.

GOVERNMENT OF MYSORE

Genl. and Rev. Secretariat,
Bangalore, 6-5-1914.

Dear Sir,

The absence of Sanitary urinals for the use of the officials of the several officers located in the Public Office Building in close proximity has not only been a source of much inconvenience but is also contributing in a large measure to loss of public time. I am therefore desired to request you to be so good as to suggest a suitable scheme for the location of urinals at convenient places in the several floors of the Public Office Buildings on the most up-to-date lines. I shall be glad to discuss the matter with you here anytime during office hours as to their location and other particulars if you consider such a course desirable.

Yours sincerely,

To

John Bhore, Esquire, L.C.E., A.M.I.C.E.,
Sanitary Engineer in Mysore.

G. REV. SEC. V 3 MAR. 1917

From

Rajasabhabhushana
KARPUR SHRINIVASRAO, Esq., B.Sc., L.C.E.,
Chief Engineer of Mysore,
Bangalore.

To

The Registrar,
General and Revenue Secretariat,
Bangalore.

Sir,

Referring to your D.O. No.G.8948 dated the 6th May 1914 to the address of the Sanitary Engineer in Mysore, calling for a scheme for the location of urinals at convenient places in the several floors of the Public Office buildings on the most up-to-date lines, I have the honour to forward herewith a plan of the Public Office buildings showing thereon the rooms proposed to be selected for the location of the water closets and urinals, and to request that the plan may be returned with your approval to the proposal and countersignature. The Sanitary Engineer reports that the rooms were selected in consultation with you and that you have approved of the same.

2. The closets and urinals will be on the water carriage system on up-to-date lines and they will be connected by means of proper pipes with sewer pipes leading the waste away from the building.

3. Extract from the Sanitary Engineer's report explaining the works proposed is also enclosed for information.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Chief Engineer of Mysore.

Enclosure No.

SUBJECT.

Extract from letter No.538 dated the 22nd June 1915 from the Sanitary Engineer, W. S. Division to the Superintending Engineer, Southern circle.

The Registrar has approved of the rooms selected for the location of the water connections and the urinals; and the provision in the estimate for the various fittings has been made after due consideration. I think the estimate provides for only bare requirements and cannot be reduced unless cheaper and inferior fittings are chosen. The site selected for the Septic tank has been approved by Mr. Krumbiegel. So, only one point remains which requires consideration and this is in regard to maintenance. A certain amount of disinfectants will have to be used for the urinals and so, there will always be the smell of these. If this is not considered a drawback there is no reason why the installation should not be a success.

&&&&&&&&&&&&&&&&&&&&&&&&&&&&&&&&&&&&&

x x

Room No.6, parts of room No.24,22 and 39 in the first floor and rooms No.10,29 and 46 and part of room No.27 in the ground floor (vide accompanying blue print of Public Office) are proposed to be taken up for fitting the urinals, &c.

These rooms are selected because (1) they are nearly equidistant from the central portion of the main building as well as from the side extensions under construction. (2) Because they are easily accessible from either verandah, front and rear and lastly these rooms are the smallest ones available for the purpose or can be converted into such by the construction of a cross wall.

In each set of rooms there will be 2 water closets of the pattern No.337 shown in page 14 of Doultons' Catalogue, two Lavatories of the pattern No.432 A shown in page 240 and a range of six urinals - 3 of pattern No.763 page 340 and 3 of pattern No.20 page 348.

These will be arranged as shown in the accompanying sketch marked A.

Wooden screens 6 feet high A.B.C.D. and E.F. will be fixed in the positions shown in the sketch to secure privacy.

The above Sanitary Fittings will be connected by means of 6" stone ware pipes and their contents led on, thereby, to a Septic Tank proposed to be built in the Park as shown in the Blue Print marked B. This site for Septic tank has been selected by Mr.Krumbiegel.
